PROFESSIONAL SUMMARY

I am a Frontend Developer with over 3 years of experience building fast, responsive, and user-friendly web applications using React, Vue.js, and Next.js. I have a strong eye for design, attention to detail, and a passion for creating seamless user experiences.

With working knowledge of backend technologies like Node.js and MongoDB, I effectively collaborate with cross-functional teams to deliver robust and scalable solutions. My goal is to craft modern, accessible, and high-performance interfaces that solve real user problems.

TECH STACK

Frontend

- Languages: JavaScript, TypeScript, HTML5, CSS3, Sass
- Frameworks & Libraries: ReactJS, Next.js, Vue.js, Ionic
- UI Libraries & Styling: Tailwind CSS, Ant Design, Chakra UI, Styled Components

Backend

- Technologies: Node.js, Express.js, NestJS
- Backend Services: Supabase, Firebase (Auth, Realtime, Storage)

Database

- MongoDB, Supabase, Firebase, MySQL

Cloud

- Vercel, Netlify, Railway, Render, Cloudinary, Firebase

Developer Tools

- Git, GitHub, GitLab, VS Code, Figma, Jira, Trello, FileZilla, Postman, SourceTree, Swagger UI, Notion, Slack,...

WORK EXPERIENCE

Freelance Web Developer | 01/2025 – 06/2025

Developed and maintained frontend web applications for a variety of clients

- Projects included blogs, GameFi platforms, financial applications, and corporate websites
- Ensured responsive design, performance optimization, and cross-browser compatibility

HOPPER VIETNAM CO., LTD | 09/2023 - 11/2024

Contributed to outsourced projects in the finance and pet social networking domains

- Developed web applications using Next.js, ExpressJS, and GraphQL
- Collaborated directly with clients to gather requirements and implement key features
- Played a vital role in ensuring on-time delivery and successful project outcomes

PLAYGROUND CO., LTD | 12/2021 - 09/2023

Developed Web3 applications in the finance and GameFi sectors

- Utilized technologies such as React.js, Next.js, Nest.js, Ionic, Capacitor, and Ethers.js
- Maintained existing codebases and implemented new features to enhance functionality and performance
- Worked closely with cross-functional teams to deliver user-centered designs and ensure timely project delivery

PoolWallet

A secure and user-friendly cryptocurrency wallet for managing digital assets

- Enables users to store, send, and receive multiple cryptocurrencies with ease
- Designed with a focus on performance, security, and intuitive user experience

Project Highlights:

- **Team Size:** 4 developers
- **Technologies:**
 - **Frontend:** ReactJS, Ethers.js, Ionic Framework, Capacitor
 - **Backend:** NestJS
- **Google Play:** [PoolWallet App](#)

Waggly Life

A community platform offering resources and support for pet owners

- Provides curated content, tools, and guidance for both new and experienced pet parents
- Focused on delivering a user-friendly and informative experience

Project Highlights:

- **Team Size:** 2 developers
- **Technologies:**
 - **Frontend:** Next.js, Tailwind CSS, GraphQL, Redux
- **Website:** wagglylife.com

FriendifyAi

AI-powered platform for multilingual translation and content generation

- Enables users to translate text and files, as well as generate images across multiple languages using advanced AI models
- Designed to break language barriers and simplify global communication

Project Highlights:

- **Team Size:** 3 developers
- **Technologies:**
 - **Frontend:** Next.js, Redux Toolkit, Tailwind CSS, etc.
- **Website:** friendify.ai

Snailhouse Marketplace

Decentralized NFT marketplace powered entirely by smart contracts

- Allows users to create, buy, and sell NFTs securely, with full blockchain integration
- Inspired by the language developed by Sidis, promoting innovation in digital ownership and Metaverse access

Project Highlights:

- **Team Size:** 3 developers
- **Technologies:**
 - **Frontend:** ReactJS, Redux, Bootstrap, etc.
- **Website:** snailhouse.io

Software Engineering

Industrial University of Ho Chi Minh City (2017 - 2021) majoring in Software Engineering.
